

CBE Health Screening for Building Entry

This questionnaire must be completed no earlier than two hours prior to arriving at CBE.

Are you fully vaccinated (two weeks past second shot for Pfizer or Moderna or single shot for Johnson and Johnson) against COVID-19?

I am fully vaccinated (if checked, disregard second set of checkbox questions and fill out signature and contact information fields).

I am not fully vaccinated, however I have tested negative for COVID-19 in the past three days (if checked, please answer next set of checkbox questions before filling out signature and contact information fields).

I am under 12 years old (if checked, please answer next set of checkbox questions before filling out signature and contact information fields).

I am not fully vaccinated and have not tested negative for COVID-19 in the past three days (if checked, you are not permitted to enter).

Any results you get, and/or any directive you receive to stay home, does not constitute a diagnosis of COVID-19. Please consult CDC and health department websites for updated guidance.

1. Do you currently have a fever of 100.4 or higher?
2. Do you have a new or unusual cough, shortness of breath, or loss of taste or smell that started within the last 10 days?
3. In the past 10 days, have you tested positive for COVID-19 from a throat, nose or saliva swab? (Not an antibody test via a blood sample)
4. In the past 14 days, have you been in close contact (within 6 feet for at least 10 minutes) with anyone who tested positive for COVID-19?
5. In the past 14 days, have you traveled internationally? Or have you returned from a state that was identified by New York State as having widespread community transmission of COVID-19 (other than just passing through the restricted state for less than 24 hours)?
